3.2%

PROTECTION GAP ANALYSIS

ADVISOR NARRATIVE

This scenario illustrates a potential protection gap of \$1,525,000 after accounting for existing group and private coverage. In the event of a premature death, this shortfall could impact the household's ability to maintain its lifestyle, fund education goals, and retire debt. This is an illustrative planning estimate based on the assumptions entered.

BENEFIT SUMMARY

Total Benefits **\$226,200**

TOTAL EXPOSURE

Total Uncovered Gap **\$6,000**

Assumes a modeled duration of 60 months.

ADVISOR NARRATIVE

This scenario illustrates an average monthly household income gap of \$100 if earned income is disrupted due to illness or injury. While reserves may last indefinitely, the ongoing shortfall will require asset liquidation or prolonged lifestyle changes. This result depends on the entered income, expenses, savings, benefits, and duration assumptions.

Liquidity & Unemployment Risk

SEVERANCE & ASSETS

\$63,500

Starting liquidity buffer

CASH DEPLETION MONTH

Infinite

TOTAL SEARCH SHORTFALL

\$0

Unfunded gap across search

RESERVE DEPLETION TIMELINE

ADVISOR NARRATIVE

In this scenario, severance, unemployment benefits, and existing emergency reserves appear sufficient to cover the household's monthly burn rate during the estimated job search period without depleting savings.

Asset Exposure & Liability

AT-RISK ASSETS

\$700,000

Exposed net worth

COVERAGE LIMIT

\$300,000

Base + Umbrella

LIABILITY PROTECTION STACK

ADVISOR NARRATIVE

This scenario illustrates a potential liability coverage gap of \$1,200,000. In the event of a significant lawsuit exceeding primary auto or homeowner limits, unprotected personal assets—including home equity and investments—could be targeted, potentially eroding 100% of the household's liquid and tied net worth.
